

HURRICANE SEASON REMINDER

Since hurricane season is upon us, we would like to pass on some precautionary measures to help you better prepare for a hurricane.

We recommend that all residents insure their personal belongings through some form of renter's insurance since we cannot be responsible for any damages to personal belongings as a result of a hurricane or any other natural disaster.

Smart safety measures include the following:

- Secure all exterior storage doors.
- Tie down or bring inside any objects from patios/balconies.
- Make sure all electric items are unplugged.
- Fill up your car's gas tank at the first sign of a hurricane.
- Remove all items from the refrigerator.
- Be sure to have the following items on hand:
 - Bottled drinking water
 - Canned goods/non-perishable items
 - Hand operated (manual) can opener/bottle opener
 - Flashlights and radio with extra batteries
 - Battery powered radio or television
 - First Aid Kit
 - Trash bags
- Until necessary repairs can be made, have an alternate place to reside should the hurricane result in major damage to your apartment.
- If you evacuate:
 - Turn off water valves behind toilet and under kitchen and bath sinks.
 - Lock your window and doors and take valuables with you

We hope these tips will help prevent any major losses or personal injuries should a hurricane occur.
